BUSINESS.

Note the difference in the figures of women who do and those who do not use modern labor-saving devices.

MORE BACKS are drawn out of shape by the old-fashioned one-sure, rubbing, twisting, wrenching way of washing clothes and cleaning house than by any other means. You ruin your health, form, clothes, paint, and don't get the best results.

Try the greatest invention of this Century in the way of soap—James Pyle's PEARLINE. It does away with the rubbing, hence there is no wear and tear on body or fabric. You don't have to bob up and down over a tub of soiled clothing and dirty water, inhaling poisonous odors and steam; hence you save your health. Its success is marvellous. Millions use it. Millions more will use it. Economical—Effective—Harmless. Every grocer sells Pyle's Pearline. Beware of peddled imitations, they're dangerous. JAMES PYLE, New York.
